PROFESSIONAL SUMMARY

Backend Developer skilled in Core Java, SQL, Spring Boot, REST APIs and MySQL. Built backend applications during internship and academic projects with knowledge of OOP, CRUD operations and relational databases.

EDUCATION

B.E. Computer Science & Engineering (Data Science)
Rao Bahadur Y. Mahabaleswarappa Engineering College, Ballari
2022 – 2026 | 78.42%

TECHNICAL SKILLS

Core Java: Variables, Data Types, Operators, Control Statements, Methods, Classes & Objects, Constructors, Arrays, Strings, Packages, OOP, Method Overloading & Overriding

SQL: MySQL, Oracle SQL, CRUD, Joins, Subqueries, Aggregate Functions, Constraints, Normalization

Backend: Spring Boot, REST APIs

Tools: Git, GitHub, Eclipse, VS Code, MySQL Workbench

INTERNSHIP

Software Development Intern | Pentagon Space Pvt. Ltd., Bengaluru | Jan 2026 – May 2026

- Developed and tested Java applications using Core Java and Spring Boot.
- Worked with MySQL databases and CRUD operations.
- Debugged backend modules and participated in SDLC.
- Collaborated with the team to deliver software solutions.
- Internship Certificate: [View Certificate](#)

PROJECTS

PrepWise – AI Interview Preparation Platform

Tech Stack: React.js, Spring Boot, MySQL, Gemini AI

- Developed an AI-powered interview preparation platform with coding practice features.
- Implemented AI-generated interview questions, resume analyzer, and analytics dashboard.
- Built responsive frontend and secure backend APIs for interview simulation.

Hybrid ML Model for Botnet Attack Detection

Tech Stack: Python, Machine Learning, Deep Learning

- Developed hybrid ACLR model using ANN, CNN, LSTM, RNN, DNN, and Random Forest.
- Performed preprocessing, normalization, feature selection, and EDA using UNSW-NB15 dataset.
- Achieved 96.98% accuracy with improved ROC-AUC and PR-AUC scores.
